

## Homework 5

1. Make sure you can follow the recursion example on the Cairo [playground](#)
2. Does this example use tail recursion ?
3. Install the Argent X [wallet](#) or Braavos [wallet](#) and create an account
  1. How does this account differ to an Ethereum EOA ?

If you want to use gitpod, this is the format

<https://gitpod.io/#https://github.com/ExtropyIO/ZeroKnowledgeBootcamp>
